# Handbook for Storytellers

CAROLINE FELLER BAUER

400 PAGES  
41 PHOTOGRAPHS  
DOZENS OF DRAWINGS  
AND DIAGRAMS

Everyone likes to listen to a good story, well told. But to Dr. Caroline Bauer—whose storytelling credentials include stints in public and school libraries and her own radio and television programs—the “medium” is just as important as the message.

A really different how-to book, *Handbook for Storytellers* shows parents, teachers, librarians and volunteers how to use effectively a variety of media—including film, music, crafts, puppetry and even magic—to bring stories alive for audiences ranging from preschoolers to senior citizens. The storyteller is taught how to create these media where possible and in all cases how to relate them to various stories.

*Handbook for Storytellers* is the complete guide to successful storytelling, from planning a single special storytime to a series of storytime programs. No other single book contains such a wealth of information and guidance for both the amateur and professional practitioner.

A variety of subject bibliographies are included to help select appropriate stories to tell on any and every occasion, as well as several sample programs to provide novice storytellers with inspiration and direction.

ISBN 0-527-57450-3

cloth \$670.00

A post-Depression project of the Historical Records Survey Program of the W.P.A., **Literary Writings in America** provides an index to works in more than 2,000 magazines, as well as in more than 600 volumes of literary history, criticism and bibliography. Under the direction of Edward H. O'Neill, Department of English, the University of Pennsylvania, a staff of fifty trained bibliographers worked on the project. The resulting card file remained unknown and relatively inaccessible until KTO PRESS undertook to publish it in its entirety by means of photo-offset lithography.

**LITERARY WRITINGS IN AMERICA: A BIBLIOGRAPHY** brings together over 200,000 previously "lost" citations to works by and about American authors, both major and minor, thus providing an essential tool for scholars in every field of American letters.
